BEAUTIFUL FURNITURE

Whether it's a red brick mansion or a tiny basement apartment, it's a home, it's where we go at day's end. Barrymore believes that every home in our wonderful city should have a place to sit, a table and chairs for dinner, and a comfortable bed. They're not luxuries, they're basic necessities.

Our Canadian winters are bitter, our homes shelter us on those long winter nights and a home needs furniture. Barrymore is pleased to help Furniture Bank ensure that every Toronto home, no matter how modest, has decent clean furnishings.

The red leather is to cover the outside sides and back representing the slopes of Canada's Rocky Mountains and the great winter sport of skiing in Canada. The Barlow Grey plaid is a wool plaid that represents the warmth of such a throw used while getting cozy in front of a Canadian fire after skiing all day. The Pewter nail heads are a detail to punctuate the ski hills or sides of the chair. The Charcoal Grey finish for the legs will work beautifully with the plaid and the Red Santiago leather,

**Belinda Albo**  
BELINDA ALBO DESIGN STUDIO

Since I love the design of our Canadian flag, I wanted to create a look that represented its clean form and lines. I used only red and white for the vinyl material colours and then added the maple leaf as the focal point on the back. The results created a simple but edgy looking chair that makes an ideal accent piece for a boy's bedroom or kid's play area or desk chair. It's a chair that makes you proud to be Canadian and free!
